

FOR GROWNUPS

Sea Stars Activity Pack

Watch. Talk. Make something together.

WHO IT IS FOR

Suggested ages 3-7 | About 15-25 minutes | With a grownup

Time is for paper activities. Try one page or go at your explorer's pace.

Our little learning goal

Look closely, count arms in a drawing, and describe details in your own words.

Gather your supplies

Paper, crayons or colored pencils, and a curious grownup.

Try it in three small steps

1. Sing the Sea Star Song together using the link below.
2. Color the big sea star on page 2 and count its arms.
3. Compare the drawings and imagine an underwater home on page 3.

These are original activity drawings, not species-identification pictures. Explore with pictures and paper; leave wild animals in their homes.

Sea Star Song

WATCH WITH A GROWNUP

Print on US Letter paper. Use black-and-white printing; crayons add the color. Fit to paper is fine for these drawing activities.

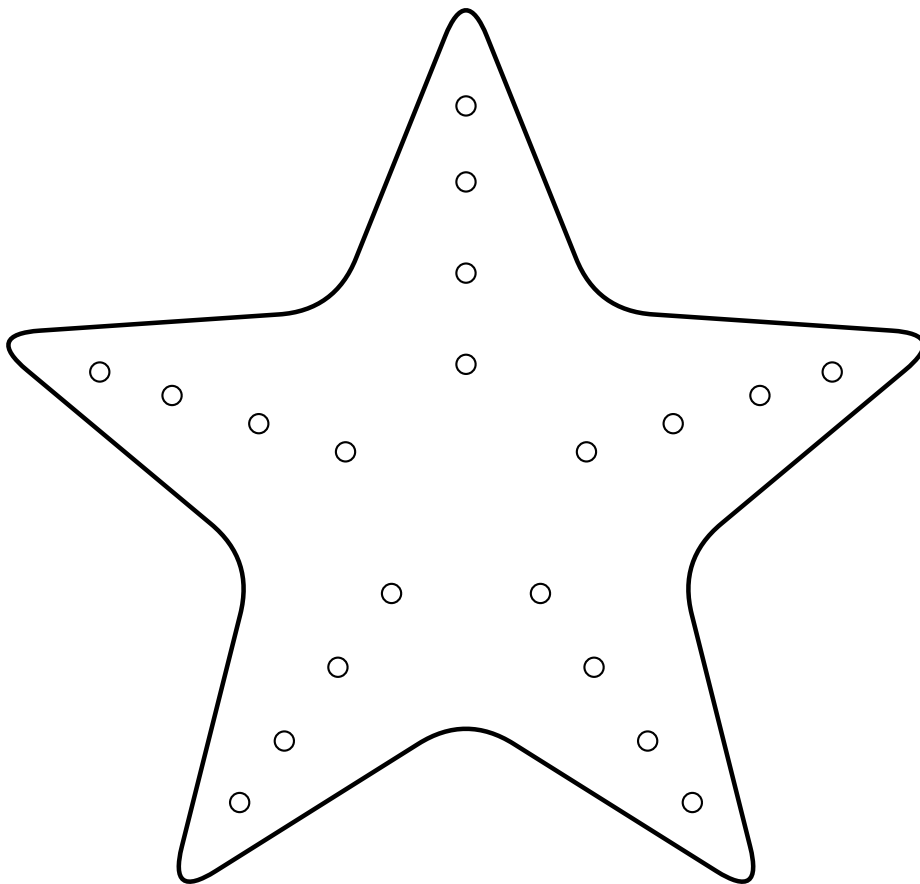

COLOR | COUNT | NOTICE

Look closely, little explorer

Count the arms in this drawing. Trace the outline with your finger, then color your sea star any way you like.

Explorer: _____

Date: _____

I count _____ arms in this drawing.

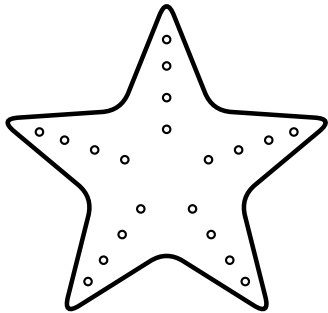

I notice _____

Tell a grownup one detail you found.

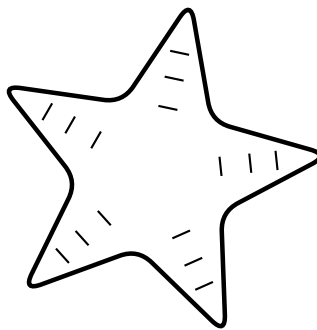

COMPARE | IMAGINE | TELL

Sea Star Detective

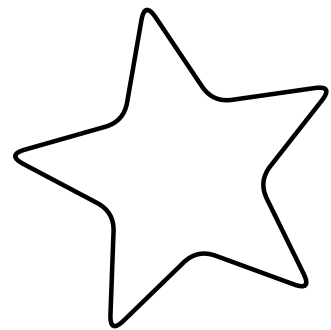

Look at these three drawings. What looks alike? What looks different? Circle a favorite and tell a grownup why you chose it.

A

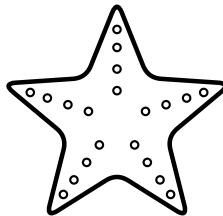

B

C

Draw an underwater home around this little sea star.

I wonder _____

Use drawings and imagination. Leave real wildlife in its home.
